

MAY 2020 PROJECT PROPOSAL

Project Request: SR-0620

Silver Strand Elementary School

Coronado Unified School District will provide a Chrome Book to any student who asks. As distance learning continues, more families have realized their need for an additional computer or one for each child in the family, as classes are held at the same time.

While Coronado Schools Foundation helps with this, they are also concentrating on other expenses involved, such as the actual learning programs, extension curriculum, etc., rather than the hardware.

REQUEST: 12 HP Chrome Books 14A G5 with Google License and Management

AMOUNT- \$3,300-\$275 each with school discount
